In re Application of   :
  Michael Satow, et al.   :   DECISION ON PETITION
Application No. 09/376,346   :   TO WITHDRAW THE
Filed: August 18, 1999   :   HOLDING OF ABANDONMENT
For: REAL-TIME COMPUTERIZED STOCK
   TRADING SYSTEM

This is a decision on applicants' petition to withdraw the holding of abandonment, filed in the United States Patent and Trademark Office on March 7, 2003, under 37 CFR 1.181.

The petition is **GRANTED** .

A review of the file record reveals that an Election/Restriction requirement was mailed on July 12, 2002, setting a one-month shortened statutory period for response. The response to this action was not matched with the file so a Notice of Abandonment was mailed on February 25, 2003. The original response has recently been found. Since the response was received after the one-month shortened statutory period had expired a fee for a one month extension of time will be charged to deposit account 06-0916 as authorized. In view of the fact that applicants' original response and fee authorization for extensions of time has been matched with the application file, applicants' petition to Withdraw the Holding of Abandonment has been **GRANTED**.

This application is being forwarded to the Supervisory Legal Instruments Examiner with instructions to withdraw the abandonment, charge the appropriate fee for a one-month extension of time to deposit account 06-0916 as authorized in the original response (received on August 19, 2002), and to forward the application to the examiner for prompt action.

No fee is required for this petition. Applicants can receive a refund of the fee submitted for the petition to revive under 37 CFR 1.137(a) by submitting a separate letter requesting same.
